

Kestravane Fleet - Price List

Version 4.2 - Effective 1 July 2026 - Supersedes all 3.x price lists

Approved by: Odalys Brennecke, VP Revenue Operations. Document owner: Deal Desk (dealdesk@kestravane.example).

All amounts in US dollars. For use by Kestravane account teams and authorised resellers in North America. Prices exclude sales tax.

1. Subscription plans

Plan	Annual billing	Monthly billing	Minimum fleet
Launch	\$29 per vehicle per month, billed annually	\$35 per vehicle per month, billed monthly	Minimum 10 vehicles
Operations	\$47 per vehicle per month, billed annually	\$55 per vehicle per month, billed monthly	Minimum 25 vehicles
Enterprise	\$72 per vehicle per month, billed annually	Not offered, annual contracts only	Minimum 150 vehicles

A vehicle is any powered asset carrying an active TrakNode unit. Trailers and other unpowered assets are billed at \$11 per asset per month on any plan.

A fleet smaller than the plan minimum may still subscribe to that plan, but it is billed for the minimum fleet size. Vehicles added during a term are prorated to the end of the term at the contracted rate.

Annual billing is invoiced upfront on Net 30 terms. Monthly billing is charged to a card on the first of each month and can be cancelled with one full billing cycle of written notice.

The contracted rate is locked for the length of the term. At renewal, increases on annual contracts are capped at 6% per year.

2. Optional modules

Modules can be added to any plan and are billed on the same cycle as the plan.

Module	Price	Requires
Driver Safety Scoring	\$6 per vehicle per month	TrakNode T4
Fuel & Idle Analytics	\$4 per vehicle per month	TrakNode T4
Maintenance Planner	\$5 per vehicle per month	Nothing further
Cold Chain Monitoring	\$3 per sensor per month	TempSense S2 sensors
Extended Video Retention	\$8 per camera per month	RoadLens camera

3. Add-ons and services

Item	Price	Availability
NetSuite connector	\$400 per month	Enterprise only

Item	Price	Availability
Technical Account Manager	\$18,000 per year	Enterprise only
Assisted data migration	\$1,500 one-time	Operations; included in the Enterprise onboarding fee
On-site training day	\$1,400 per day plus travel	Operations, Enterprise
Sandbox environment	\$150 per month	Operations; included on Enterprise

Availability of the other native connectors by plan is published in the Integration Matrix.

4. Onboarding fee

The onboarding fee is charged once, on the first invoice.

Plan	Onboarding fee
Launch	No fee, self-serve setup
Operations	\$2,500 one-time
Enterprise	\$7,500 one-time

The fee covers the kickoff call, account configuration, two remote admin training sessions and support through go-live. It does not cover hardware installation.

5. Hardware

Hardware is purchased outright and is invoiced on shipment.

Item	Price	Notes
TrakNode T4 telematics unit	\$89 per unit	One required per vehicle
TempSense S2 temperature sensor	\$64 per sensor	Wireless, pairs with a TrakNode
RoadLens dual-facing camera	\$229 per camera	Road and cab view
Professional installation	\$45 per vehicle	Covers every device fitted in the same visit

Self-installation carries no charge. Shipping within the contiguous United States is free on orders of 20 units or more; smaller orders ship for \$75 flat. All hardware carries a 3-year warranty with advance replacement.

6. Discounts

Discounts apply to plan subscription fees only. Modules, add-ons, hardware, installation and onboarding fees are never discounted.

6.1 Volume discount

The volume discount is applied automatically on annual billing. Monthly billing is not eligible.

Fleet size under contract	Discount off list
100 to 249 vehicles	5% volume discount
250 to 499 vehicles	8% volume discount
500 or more vehicles	12% volume discount

6.2 Approval authority

The thresholds below refer to the total discount off list, with the volume discount counted in.

Total discount	Who may approve
Up to 10%	Account Executive, no further approval needed
Above 10%, up to 18%	Regional Sales Director
Above 18%, up to 25%	VP Sales, after Deal Desk review
Above 25%	Not available without a written exception from the CFO

A quote that exceeds the signer's authority is not valid until the approval is recorded in the Deal Desk queue. Committing to a three-year term locks the rate for the whole term but does not add a further percentage discount.

6.3 Pilots and special schedules

A 21-day pilot of up to 5 vehicles, with hardware on loan, can be offered with sign-off from the Regional Sales Director. Municipal and non-profit fleets are quoted from the Public Sector schedule, which is maintained separately.

7. Plan highlights

Plan	Support channels	Customer success	Uptime commitment
Launch	Email	Help centre	None
Operations	Email and chat	Pooled Customer Success team	Yes
Enterprise	Phone, email and chat	See note below	Yes

Enterprise fleets of 250 or more vehicles are assigned a named Customer Success Manager; smaller Enterprise fleets are served by the pooled Customer Success team.

Full support terms, response targets and uptime figures are set out in the Support Plans and Service Level Guide.
